Treatment Enhancers

Eye Peptide Firming Mask **10**

Post Peel Kit **20**

Direct High Frequency **10**

High Frequency has a drying effect on oily skin, destroys bacteria, assists in healing and improves circulation. If used for a short time it stimulates sebaceous glands so will improve dry skin.

Rejuvopen®

The Rejuvopen® microneedling pen uses sterile, sealed individual disposable needle cartridges for optimal patient safety, comfort and results. By stimulating the skin's natural ability to heal its self this treatment reduces scarring and dramatically increases the production of new collagen. The effect continue to take for effect for up to 2 years.

A course of 3 treatments are recommended 6 weeks apart, but single treatments will also show amazing results.
